

# Massachusetts Department of Transportation Tier III Complete Streets Post-Construction Evaluation

## Instructions

Please fill out the following pages to the best of your ability. These valuable metrics are important to show the results of this Program and plan for future funding levels.

Include **all** projects funded in the Project Overview and Project Statistics sections, however choose up to **four** to feature in the Image section.

If an answer is not warranted or a metric does not apply, please type N/A. **Do not** leave the box blank.

As a tip, when inserting photographs into this PDF, click on one of the large gray boxes. From here a dialog box will pop up directing you to select an icon. Click Browse and navigate to the photograph to inserted. Note, the file type may need to be changed in the bottom right hand corner to locate the image. Choose a few projects that best represent the Complete Streets work completed. Alternatively, photographs to be included may simply be emailed with the completed assessment.

If photographs are emailed, please be sure to label them as shown below:

*Before/After\_Location\_Municipality\_Improvement*

Thank you for your time.
